About Us

Our Legacy

NEUTRON ENERGIES AND SERVICES is a Tanzanian company registered with the Business Registration and Licensing Agency (BRELA) and licensed by the Contractors Registration Board (CRB), prequalified Electrical contractors by TANESCO & EWURA. We specialize in delivering integrated solutions in electrical power, ICT, and security systems, with a strong emphasis on solar power and renewable energy technologies. Our offerings include the design, installation, and commissioning of systems to ensure optimal performance and reliability. Additionally, we supply a diverse range of high-quality electrical products for power generation and industrial processes, catering to the varied needs of our clients.

Leadership

We are led by a team who engage, lead with curiosity, actively listen, and unlock creativity at every turn. We have a well-seasoned team at the helm with over 25 years of combined industry knowledge. Utilizing a hands-on approach to our service delivery, broad based experience, and deep client relationships, we are positioned for a successful future.

Our Leadership

Each leader is a subject matter expert in their respective market. We are comprised of technical experts and strategic innovators who are passionate about providing an impactful experience to all our partners.

Our Mission

To lead the energy transition by providing innovative electrical, solar, and ICT solutions, empowering clients to achieve sustainable growth and enhanced security through efficient technologies.

Our Vision

Powering a sustainable future with innovative electrical solutions.

Core Values

NEUTRON ENERGIES AND SERVICES core values support the foundation of success and future growth for the organization, employees, and client partnerships. These values align our decision-making, relationships, and goals to act as the guiding principles in all we do.

Expertise:

"Our experienced team delivers market-leading skills across all our fields of operation."

Flexibility:

"Tailor-made solutions designed to exceed customer expectations."

Reliability:

"We prioritize safety, quality, and on-time delivery for every project."

Dedication:

"We are committed to delivering excellence, every time"

Our Expertise

We offer comprehensive services in electrical power, ICT, and security systems, ensuring that each project is delivered with precision, quality, and reliability. We focus on delivering sustainable and cost-effective energy solutions, with a particular emphasis on solar power and renewable energy systems. Our team of skilled engineers and technicians is committed to the highest standards of quality and safety.

Why Choose Neutron Energies and Services?

Expertise and Experience:

Our team of qualified professionals has extensive experience in providing customized Electrical power and technology solutions.

Comprehensive Solutions:

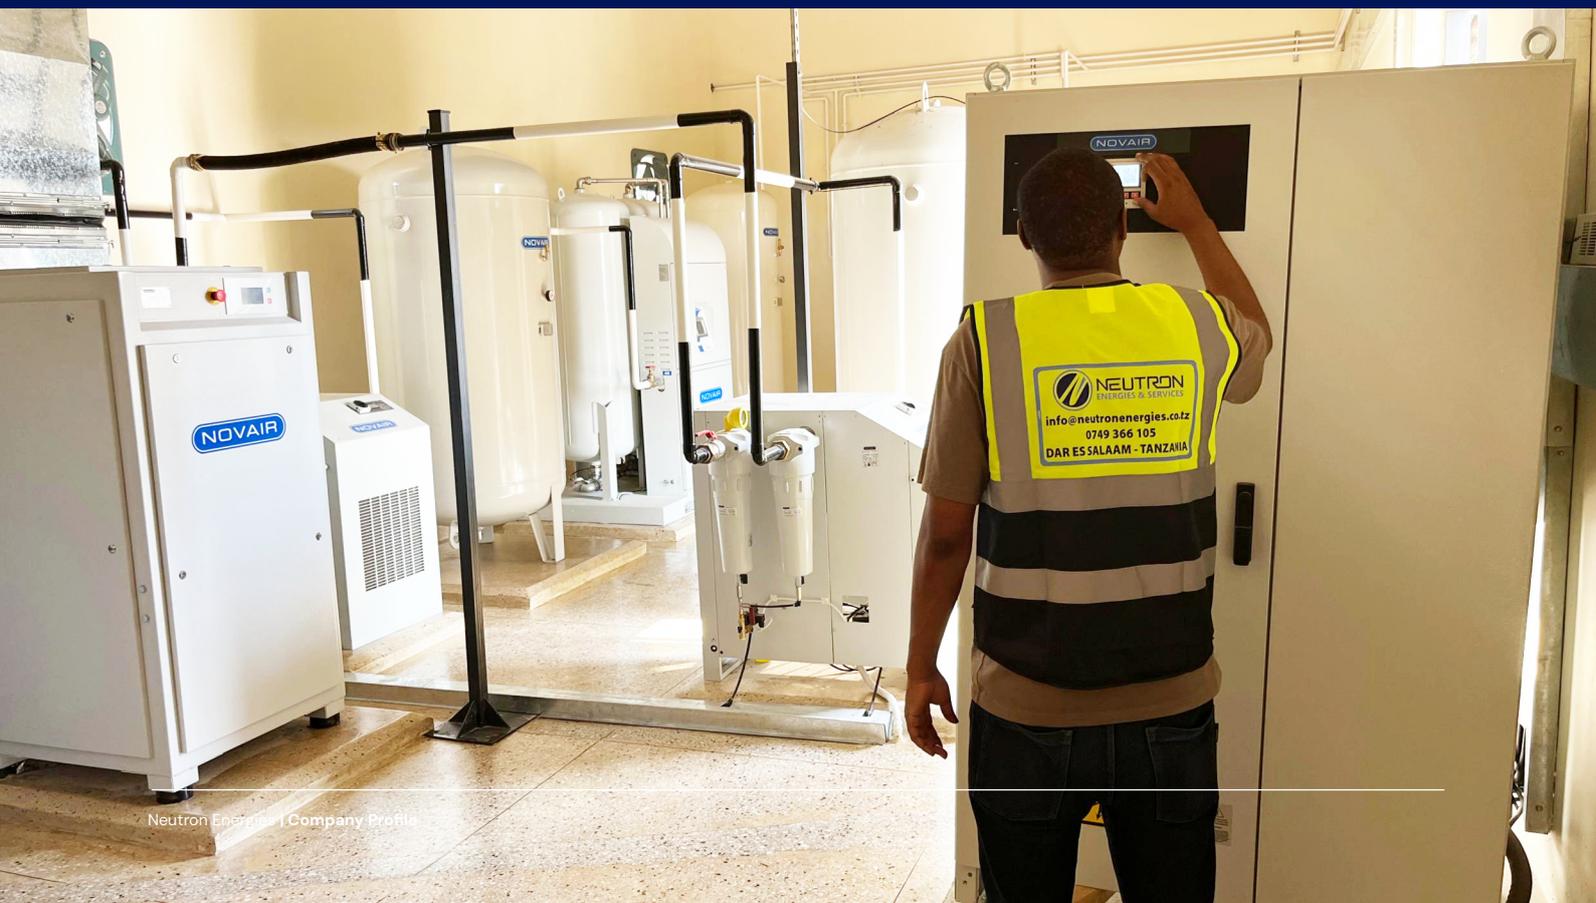

We offer end-to-end services, from design, procurement and installation to commissioning, ensuring optimal system performance.

Quality Products:

We provide high-quality electrical, ICT, Fire systems and Security systems products that meet industrial standards, ensuring long-lasting performance and reliability.

Sustainable Energy Solutions:

We are committed to promoting renewable energy, helping businesses and individuals transition to sustainable energy sources like solar power for energy efficiency.

Our Services

Electrical Engineering

Designing the right electrical system is not an easy job, as it takes skilled and knowledgeable industry professionals to do so. Any lapse in understanding and implementation makes the system vulnerable to failure. Our engineers and designers provide the technical expertise necessary for the most efficient and cost-effective use of your power system assets, helping to ensure the highest degree of reliability and availability of your system.

At NEUTRON ENERGIES AND SERVICES we focus on system integration, energy efficiency and total cost of ownership, combined with providing detailed contract documents.

1. Power Transmission System Design and Engineering
2. Substation Installation and Maintenance
3. Power Distribution Network Solutions
4. Power System Protection and Automation
5. Electrical System Audits and Consulting
6. Renewable Energy Integration

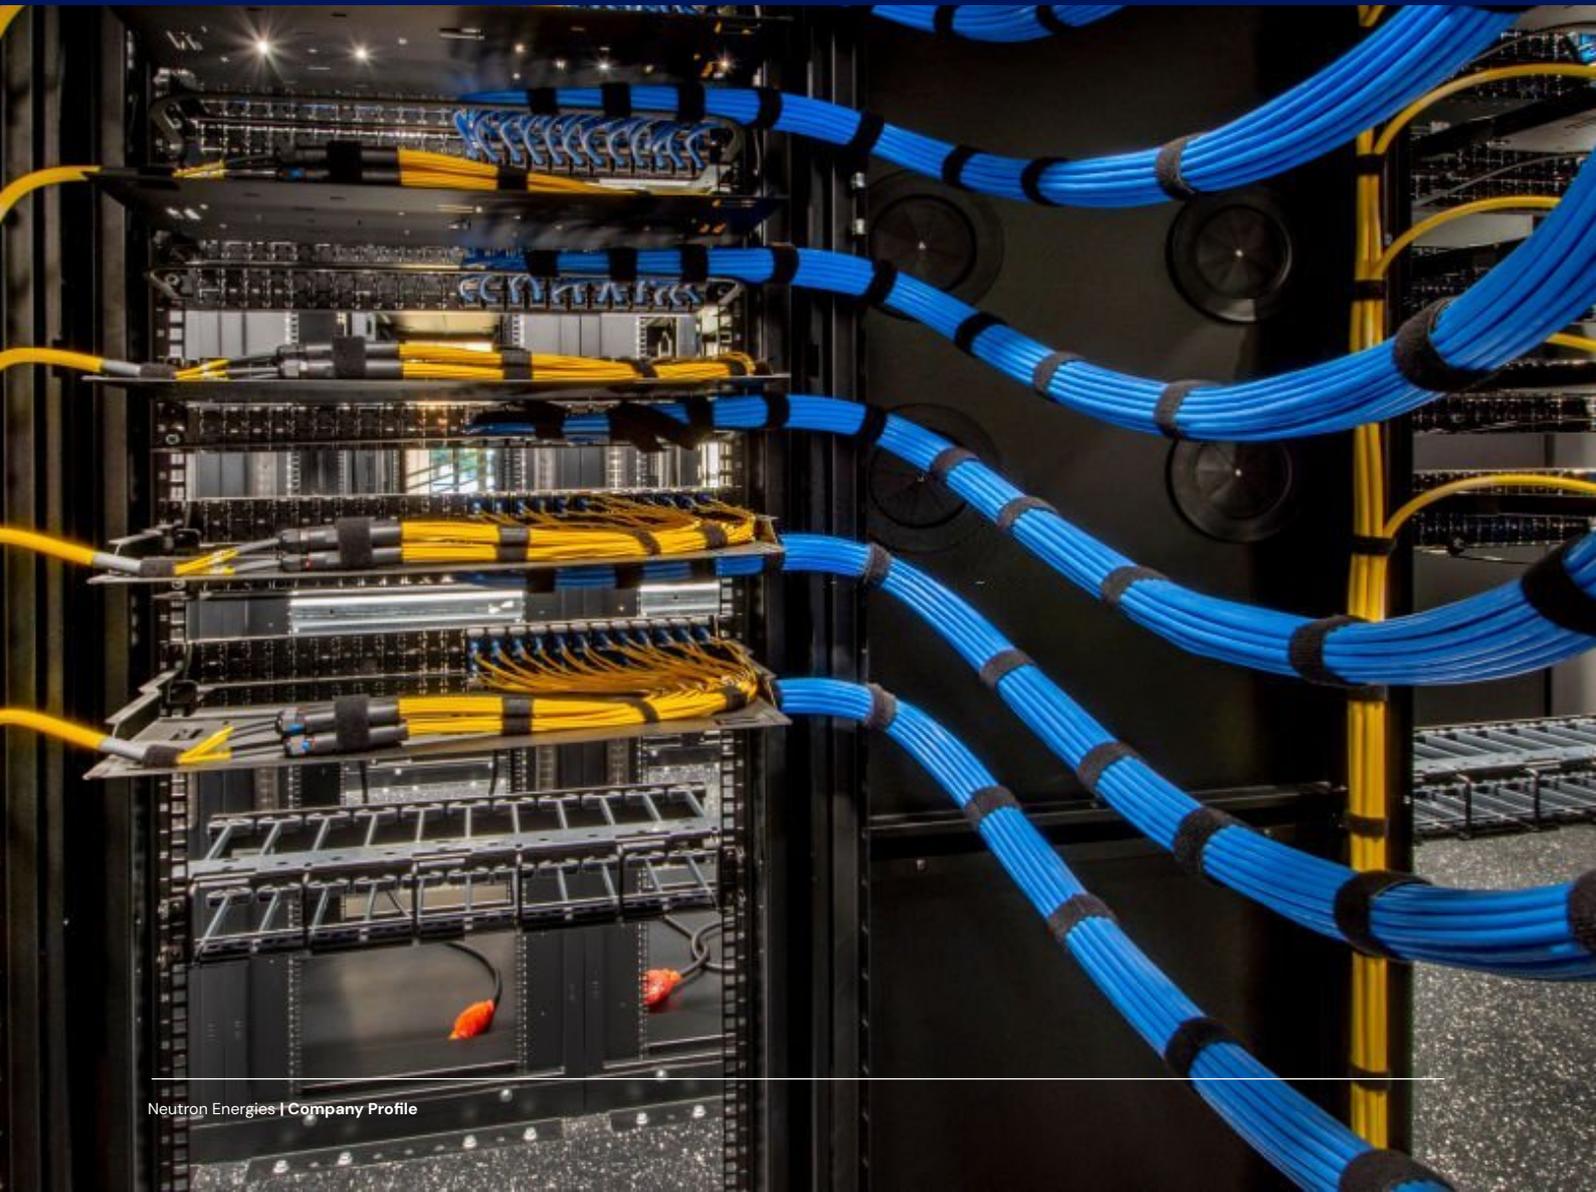

ICT and Security Systems

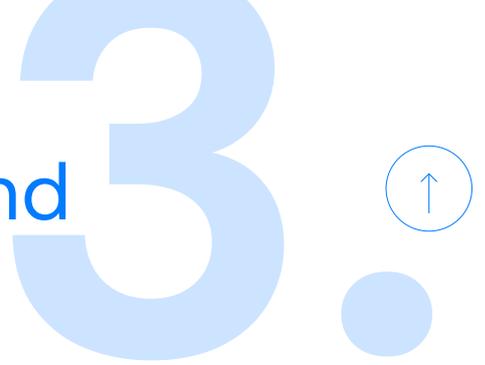

Neutron Energies and Services is a leading provider of ICT infrastructure and integrated security systems, specializing in delivering tailored solutions that ensure the seamless operation of technology environments while safeguarding your premises. Our expertise spans a broad range of high-tech services, including Door Access Control Systems, CCTV Surveillance.

- 1. Intergrated Security Systems**
- 2. Security System Maintainance & Support**
- 3. Security Consultation & Site Assesment**
- 4. Perimeter Security Automation**

Fire Detection, Alarm and Suppression Systems.

Neutron Energies and Services is a trusted provider of advanced fire detection, alarm, and suppression systems designed to protect lives and assets from the devastating effects of fire. With a strong focus on safety, reliability, and compliance with industry standards, we offer end-to-end fire protection solutions that cater to commercial, industrial, and residential needs. Our comprehensive services include the design, installation, maintenance, and monitoring of fire detection systems, alarm systems, and fire suppression.

Fire Alarm Systems

Fire Suppression Systems

Solar and Renewable Energies Solutions.

Neutron Energies and Services is a forward-thinking company committed to providing sustainable solar power and renewable energy solutions that drive environmental responsibility and cost efficiency. We specialize in harnessing the power of solar energy and other renewable resources to help businesses, homes, and industries reduce their carbon footprint and achieve long-term energy savings. Our comprehensive solutions include everything from initial consultation and system design to installation, maintenance, and support. By offering customized, reliable, and scalable renewable energy systems, we empower our clients to embrace a cleaner, more sustainable future.

1. Solar Power System Design and Installation

2. Solar Energy Storage Solutions

3. Solar Water Heating Systems

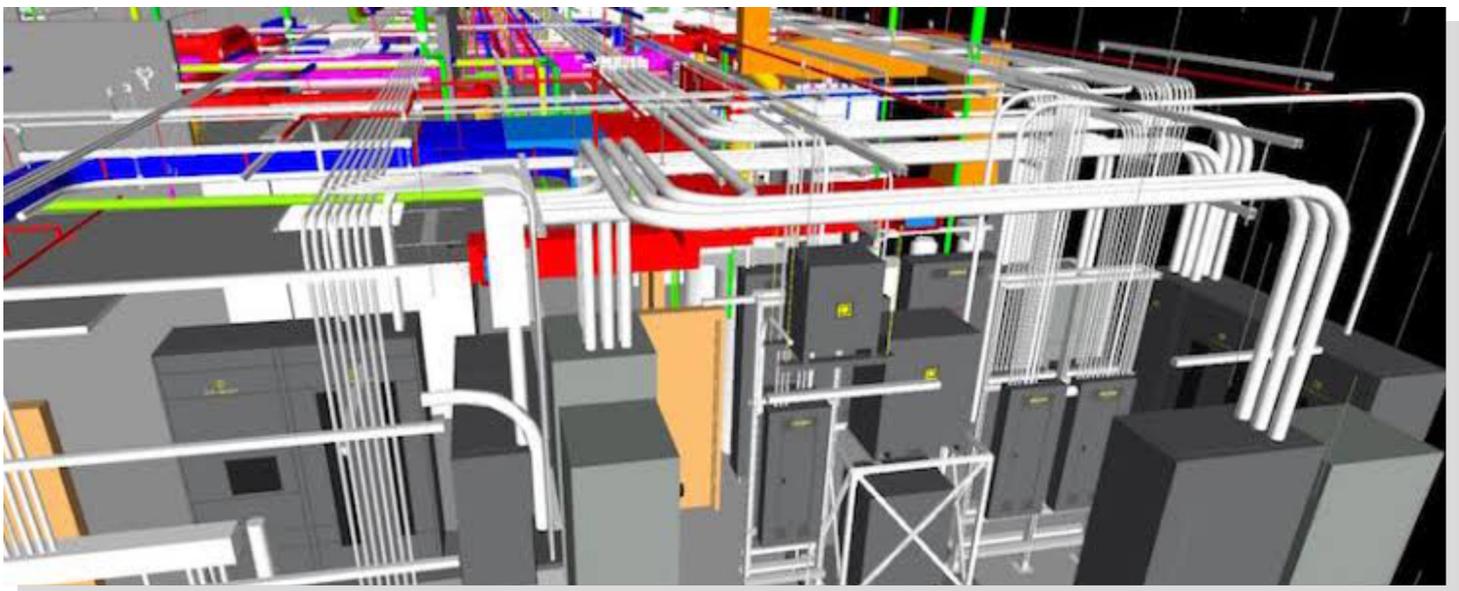

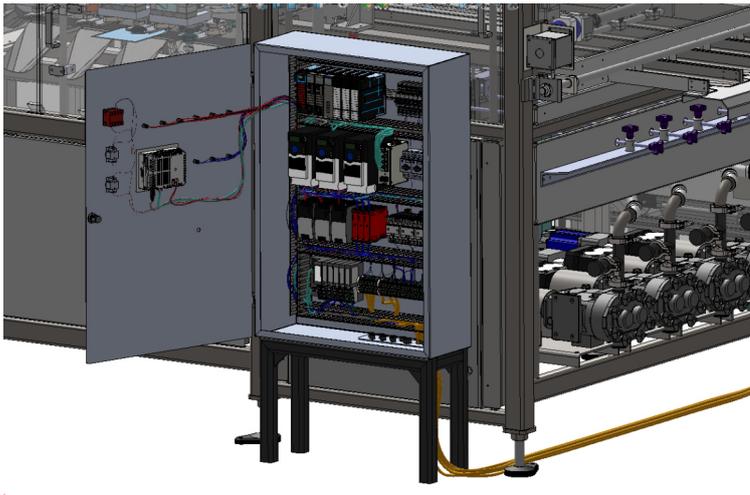

4. Grid-Tied and Off-Grid Solar Systems

Computer Aided Design and Manufacturing CADM//BIM.

Neutron Energies and Services is a leading provider of cutting-edge electrical, Solar energy, ICT, and security system solutions, specializing in offering innovative technologies and expertise for complex projects. With a strong focus on using advanced software tools and methodologies, Neutron excels in Computer-Aided Design (CAD) and Building Information Modelling (BIM) for seamless project delivery. The company is equipped with a team of experts proficient in industry-leading platforms like AutoCAD, Revit, Bentley, MATLAB Simulink, and DIALux. Neutron Energies and Services delivers optimized, energy-efficient, and future-proof designs to meet the growing demands of modern infrastructure.

NEUTRON
ENERGIES & SERVICES

Project Testing and Commissioning: **The Heart of Our Service**

Commissioning is a vital step in the successful delivery of any electrical, ICT, or security system. At Neutron Energies and Services, we don't just install systems; we ensure that they are fully operational, optimized, and meet all safety and regulatory standards. Our commissioning process includes:

- **Thorough Testing:** We run detailed tests to confirm that every system component functions as intended.
- **Quality Assurance:** We ensure that all installations adhere to the highest quality and safety standards.
- **Final Inspection & Handover:** A final review of all systems ensures they are fully integrated and ready for use. We provide clients with all necessary documentation and training for ongoing operation.

Our approach to commissioning provides clients with confidence, knowing that their systems are set up for long-term success and optimal performance.

Why Choose Neutron Energies and Services?

Expertise in Commissioning:

Our team ensures that systems are not only installed but also rigorously tested, calibrated, and optimized.

Customized Solutions:

We deliver tailored electrical, ICT, and security solutions designed specifically for your unique needs.

Comprehensive Support:

From design through commissioning and beyond, we provide continuous support to ensure systems operate smoothly.

Safety and Compliance:

We prioritize safety and ensure that all our systems comply with relevant regulations and standards.

Neutron Energies and Services is your trusted partner for commissioning electrical, ICT, and security systems, providing the technical expertise and attention to detail that ensures your projects are completed on time, on budget, and to the highest quality.
